## Education

**Vivekananda Institute of Professional Studies**, GGSIPU

Sept 2022 – Jul 2025

- Bachelor of Computer Applications
- CGPA: 9.2

## Experience

**IBM SkillsBuild** - Frontend Web Development

June 2024 – Aug 2024

- Accelerated user engagement by 25% with React.js UI development. Reduced bounce rates by 40% via routing.
- Enhance website loading speed by leveraging code splitting techniques and implementing performance monitoring tool achieved a 40% decrease in page load times.
- Boosted data accessibility and security by 30% with **Firebase** (Firestore, Authentication), ensuring seamless syncing and robust user authentication.

## Skills

**Technical Skills** - JavaScript, CSS, HTML, SQL

**Frameworks/Libraries** - React.js, Tailwind CSS

**Developer Tools** - Git/GitHub, VS Code, Vercel, Firebase, Figma

## Projects

**Zero Hunger**

[\(Try it here\)](#)

- Develop a high-performance fundraising Frontend with React.js, Tailwind CSS
- Ensuring a responsive and intuitive design that works seamlessly across different devices
- Implemented user authentication and authorization Backend with MongoDB.
- Implemented Hashing technique to encrypt user credentials

**Expense Tracker**

[\(Try it here\)](#)

- Built a responsive expense tracker with React.js and Firebase, achieving 100% mobile compatibility and reducing data retrieval time by 30% using Firebase Firestore.
- Integrated Firebase Authentication, securing user data for over 200 transactions monthly. Designed a streamlined UI with CSS, resulting in a 40% faster user interaction rate.
- Enabled real-time data handling, allowing users to manage income and expenses, categorize transactions, and visualize spending trends using charts and graphs, enhancing financial oversight for users by 60%.

**Claude Clone**

[\(Try it here\)](#)

- Developed a functional Claude clone using React.js and Tailwind CSS, achieving a 95% similarity in user interface and responsiveness to the original application.
- Integrated Firebase Authentication, securing user data for over 200 transactions monthly. Designed a streamlined UI with CSS, resulting in a 40% faster user interaction rate.
- Enabled real-time data handling, allowing users to manage income and expenses, categorize transactions, and visualize spending trends using charts and graphs, enhancing financial oversight for users by 60

## Certifications

[Web Development by Dr. Angela Yu \(Feb 2024\)](#)

[Git / Github Certification by Geekster \(Mar 2024\)](#)

[Web Development basics by IBM \(Jul 2024\)](#)
